

THE DEER TOWER™

Hunting Blind System

THE DEER TOWER™ offers a true tower blind hunting system – and you choose how to use it! Start with the clear advantages of the 10' stand for achieving desired elevation, enhanced viewing and concealment. It can also be used with its 5' stand – or simply as a ground blind. Best of all, it's an outfitter-quality product in a complete package virtually any hunter can afford!

- **COMPLETE PACKAGE** – Standard 4' x 4' shooting house and stand comes with pre-cut housing panels and plywood deck *(not included with 4' x 8' model)*
- “Slip-Fit” frame components and compact packaging for easy hauling and quick two-person assembly
- Heavy-duty 2” x 2” 15 GA galvanized structural steel tower legs
- 6'5” interior headroom and covered portholes for stand-up viewing
- Integrated shooting rails, hinged drop-down windows, corner shelves, all-welded offset ladder with easy-to-climb rung spacing, and oversized access door with latch
- Actual shooting heights of 13' and 8' with the 10' and 5' stand configurations
- Anchoring system and assembly instructions included
- Weight capacity of 700 lbs. for 1-2 hunters (or 2-3 in the 4' x 8' model)

50 Eastley Street • Collierville, TN 38017

Finally, A Complete Tower Blind Package That's Affordable!
